## PROGRESSIVE SHOW TO BARE METHODS OF MANUFACTURE

Work on Building to Start in Next Two Weeks—Mica Concern Takes Space.

Industrial exhibitors at the Progressive exposition which will be held in the new building to be erected at the fair grounds, will show how their products are manufactured. This decision was reached after the canvass of the manufacturers of the city was completed by representatives from the Chamber of Commerce. In order to have the booths in readiness for the manufacturers as soon as possible work on the new \$12,000 exhibit building will be begun within the next two weeks.

One of the new concerns of the city to secure exhibit space Thursday was the Consolidated Mica Co. Officers of the new concern told the exhibit committee that they will endeavor to show how their material is brought to South Bend from the companies' mines in Alabama and then manufactured into the various forms. The mica is used in the manufacture of electrical appliances and there is no waste to the product taken from the mines.
